

Exhibit
Brilliantly

B L

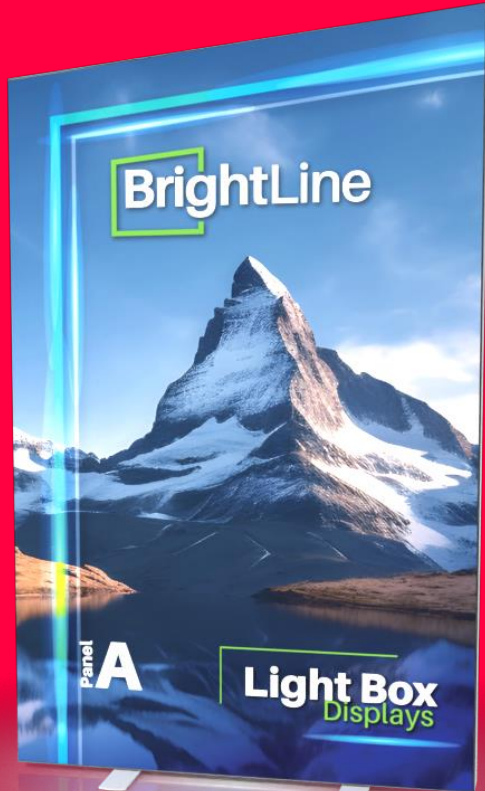

Introducing **BrightLine**,
The smart way to exhibit.

Make an impact and capture the spotlight in comfort. This next generation light box was crafted with convenience and durability in mind, every detail well thought-out to impress the audience as well as the marketer.

The **Future** of **Illuminated Exhibits**

Graphics

Vibrant & **Eco-Friendly**

This brilliant light box display system features captivating backlit graphics printed on **One Planet**, our exclusive 100% recycled fabric. Even light-block covers are made from upcycled plastic bottles.

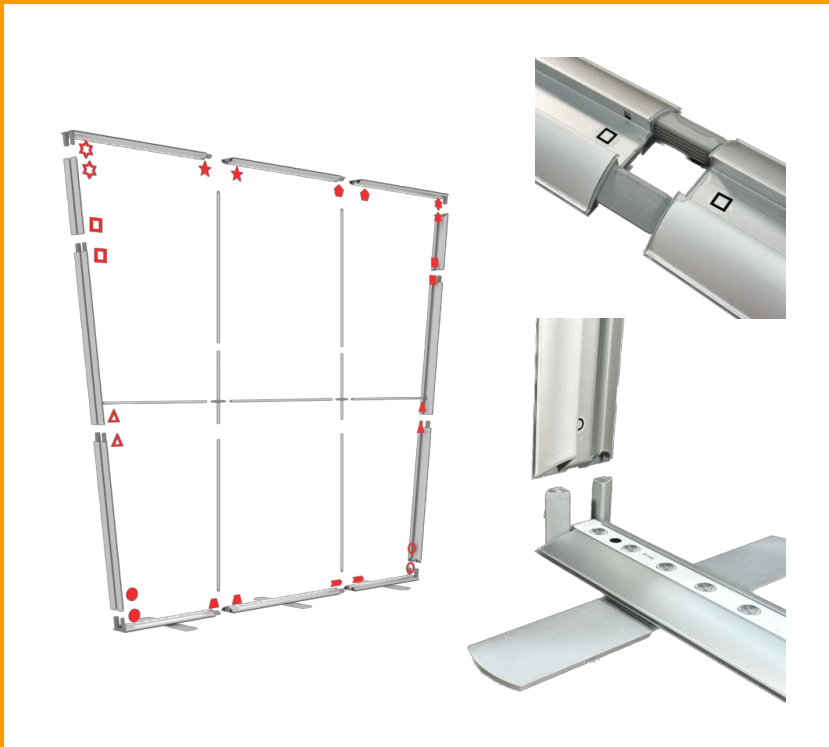

Designed for single or double-sided branding, graphic panels fit effortlessly with push-fit SEG technology.

Using cutting-edge equipment in transfer dye sublimation, we produce graphics with:

- ✓ Vivid colors
- ✓ Outstanding HD resolution
- ✓ No creases or peeling when folded

Top Quality Engineering

Appealing Architecture

Angles and height variances attract attention

Tool-Free Assembly

Frame snaps together in minutes, labeled for intuitive installation

Aluminum Construction

Strong yet light-weight, built to last

Brilliant LEDs

Encapsulated in the frame

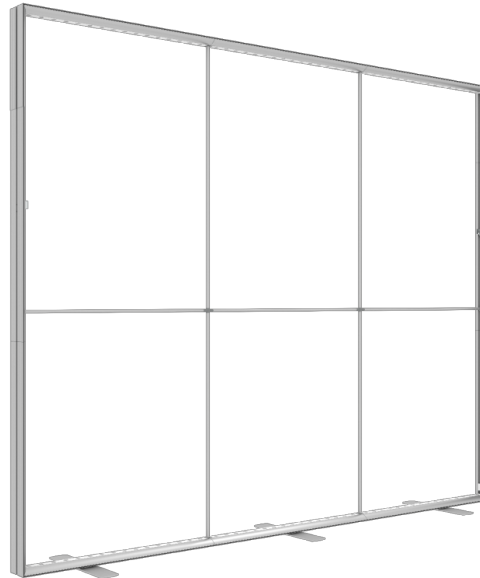

Plug and Play

Ingenious magnetic power connections means no wires to mess with

Stable Footing

Intelligent swivel design slides to the desired location

Frame Details
